Recombinant Protein Products

Ready to order from our on-line protein shop!

A catalogue of high purity crystallization grade drug target recombinant proteins expressed and purified in our protein lab is available. Our services include proteins that are ready to be shipped to customers for research purposes.

The proteins have been purified to a high degree, characterized and crystallized. Detailed product sheets for each protein can be downloaded from the website.

Our expanding catalogue of crystal-grade recombinant proteins includes kinases, bromodomains, phosphatases and more, for example see below, for full catalogue see www.saromics.com
